10:30 a.m.	<p>Session I – The Best Dam Session: Water Management Principles</p> <p>The Future of Municipal Government Project identified water as a major vulnerability for municipalities in Alberta. The quality and quantity of water will deteriorate. ABmunis has done substantial work on developing water policies to guide our advocacy efforts. However, those policies are now almost a decade old. The Sustainability and Environment Committee is currently reviewing those water policies. The first step is updating our foundational water management principles. This interactive session will provide an overview of these principles and seek your input on where to go next with our water policy project.</p>
