

# Energy Program

## Our Energy Program provides outstanding value through aggregation, expert advice, and industry leading customer service.

Our energy aggregation process unlocks access to the wholesale market – increasing participation, driving competition, and ensuring our members get access to the best price at the time of the transaction.

Outsourcing energy procurement, a service that's available at no additional cost to our members, could cost a municipality and additional \$10,000 per year to \$25,000 per year.

We are committed to sharing our energy expertise and providing industry leading customer service.

Sites Serviced:

**25,000**

Customer Satisfaction:

**99%**

## Expert energy advice and support paired with industry leading service.

- Energy products designed by our members that continue to evolve based on member needs
- Better pricing achieved through aggregation
- Industry advocacy provided on your behalf with your distribution companies
- Savings through energy analytics and efficiency solutions
- Assistance to municipalities in reaching environmental stewardship goals
- Expertise in customer care, energy management and energy market fundamentals
- Customer care located in Alberta and dedicated to serving municipalities and municipally-related organizations
- Access to advice and expertise is offered to all members regardless of size of municipality
- One-on-one education and training sessions

*Through our unique aggregation procurement, we secured electricity rates more than 10% below market forecasts in 2020.*

*And our 2021 natural gas aggregation secured rates 5% below the future market forecasts for over 100 members.*
